

Dr Gregory Webb
MBChB(UCT), FCUROL(SA), FRCS(UROL)

SPECIALIST UROLOGIST

Dr Greg Webb grew up in Kwazulu Natal and matriculated from Michaelhouse in 1979. He attended the University of Cape Town medical school achieving his MBChB in 1985. His post graduate surgical training was done at Groote Schuur hospital and he completed his Fellowship in Urology in 1995.

He then pursued further post graduate training in reconstructive surgery at the Institute of Urology in London, passing his Fellowship in Urology from the Royal Colleges of Surgeons in 1997.

He joined the private practice of Dr Borchers and partners in Cape Town in 1997. He currently practices predominantly out of Constantiaberg Medi-Clinic and is a visiting consultant Urologist at Victoria Hospital in Wynberg.

His fields of interest include all aspects of Urological oncology, female urology and urinary stone disease. His specific area of surgical interest is the use of brachytherapy in the management of localized prostate cancer.
